

موضوع الأطروحة	اسم الطالب	ت	ت الكلية
.Extrinsic tooth stains among Iraqi children and adolescents	عميد خالد عبد الحميد	1	905
.Caries experience and periodontal among down svudrome population in Baghdad-iraq	نسرین جاسم فارس	2	906
The action of dentifrices on demineralised enamel in vitro	أرشد أحسان مرزا	3	907
.Mestiodistal diameter and occlusal features in the primary dentition of 4-5 year old children from Baghdad-iraq	بان يوسف محمود حكمت	4	908
Oral health status among IDDM on a population group of teenagers in Baghdad, Iraq	زينب عبد الرضا	5	909
.Child behavior in the dental clinic	بان علي سليم	6	910
العادات القمعية السنية وصحة الفم والاسنان لدى اطفال المدارس الابتدائية في مدينة بغداد العراق	صبا اسعد عوثاني	7	911
انتشار ائماط المسبجات بين اطفال رياض الاطفال	عفرآء صلاح حسين	8	912
Fluoride uptake distribution relation and its effect on remineralization in human enamel	ليث عادل محمد صالح	9	913
Dental Fluorosis and dental caries prevalence in Iraq children living in areas with low and high level of natural water fluoride	مي غاتم سليم	10	914
Measurement of space loss followed prematurely extracted primary molars in a sample of children aged (8-9)years old from Baghdad city	دنيا أحمد خلف الدليمي	11	915
Assessment of dental anxiety by physiology measurement (salivary cortisol) and psychological measurement (dental anxiety)scale in children	عبير محمد حسن	12	916
Evaluation of different clinical methods in detection of early carious lesion in approximal surface among group of children	غادة طالب ابراهيم	13	917
.Oral Malodor and volatile sulfur compound droauced by bacteria in saliva among children in baghdad-iraq	مها مؤيد مصباح	14	918
oral health status and treatment needs among 8--years-old school inurbans and rural areas in baghdad province-Iraq	درين أوميد مدحت	15	919
chronology of permanant teeth emergency for Iraqi children baghdad city (a cross-sectional study)	زينة حازم داود	16	920
salivary iron concentration among 5-13 years old iron deficiency anemic and relation to oral health status	لمياء ابراهيم سعود	17	921
Oral health status among acute lymphoplasic leukemia children from the south of Iraq after the aggression	رغد صلاح عيود	18	922
.The rapuetic effect of supervised flavored chorhexidine moathrinse for school children suffering iron oingivitis	مي عدنان محمود سلمان	19	923
Evaluation of antibacterial effects of six irrigant on specific bacteria isolated from infected root canals	أسماء علاء الدين كاظم	20	924
Evaluation of the enosive potential of three dietary acido and their effect on the microhardness and surface morphology of the teeth	شيماء طه نوري ملاحويش	21	925
.Evaluation of tooth brualing program among group of wistiltted down syndrome children in Baghdad city	ريم حسان مجيد الصفر	22	926
Evaluation of calcium and hydroxyl lons release from mineral trioxide aggregate mixed with four different vehicles	أسيل عصام عبد السلام العطار	23	927
Evaluation of the causes and pattern of primary and permanent teeth extraction among children attended pedodontic and preventive clinic in the college of dentistry, university of Baghdad	صبا فؤاد جبر	24	928
.Measurement of mercury concentration in salvia of selected sample of children in relation to amalgam fillings	عبد الوهاب طلعت شاكر	25	929
Oral health status and treatment needs among (6 and 12) years old school children in irbid city (Jordan)	عدنان محمد علي الخزعلي	26	930
.Assessment of microleakage of different tooth-colored restorative materials in primary teeth	محمد ابراهيم	27	931
.Pacifies Effect s on the oral health of children in Baghdad city	أسيل حيدر محمد جواد	28	932
Interceptive treatment of initial carious lesion of smooth enamel surfaces of primary teeth by in filtrating fit and fissuse sealant and low niscosity flowable composite	بشرى رشيد نعمان	29	933
The preventive effect of pulsed 1064 nm ND:YAG laser on caries like lesion formation on the occlusal fissure with and without application of topical fluoride agent	سهيرو دنيح عيود	30	934
.Evaluation of bleaching technique on microhardness and morphological appearance of enamel in children	ندى عبد الواحد شنان	31	935
.Dental erosion among 11-12 years old children in mosul city	غيث حمدون ياسين	32	936
Determiration of fluoride, zin and lead lons concentration in primary teeth and drinking water and their relation to dental caries experience in 6-12 years old school children in Ninewah governorate-iraq	بيداء علي عثمان	33	937
() Nursing caries in relation to salivary calcium, phosphor, zinc and copper lons concentrations and dietary analysis in selected sample of pre-school children	الاء صياح حسين	34	938
Effect of fixed orthodontic appliance on old microflora and the caries activity in children.	زينب عباس الشامي	35	939

موضوع الأطروحة	اسم الطالب	ت	ت الكلبي
Evaluation of the antibacterial effect of some endodontic material , imiganto, and antibiotic on open apex root canals .bacterial isolated (in vitro study)	مها عبد الكريم المشهداني	36	940
Maximum bite force in Iraqi children in relation to an mandibular growth rotation.	منى سليم خلف	37	941
Evaluation of primary schools students with traumatized anterior permanent ancisors in relation to different variables in mosul city.	أغارير غاتم محمد	38	942
Evaluation of the efficacy of new modified carisolr TM gel removal of artificially induced caries-like lesion in .primary teeth	تريفا عبد القادر علي	39	943
A comparison of two non-vital bleaching methods on discolored teeth and their effect on mirdeakage of composite .restoration in children	أيمن ربيع محمود	40	944
Measurement of salivary and serum immunoglobulin A, G, M and its relation to different degree of dental caries .and gingival solution in selected group of children	أوراس أسماعيل نصيف	41	945
Evaluation of calcium and hydroxyl ions release from non-setting calcium hydroxide paste and mineral trioxide .aggregate through three diffrent apical opertre sizes during apexification cation procedure	سارة طالب عبد القادر	42	946
.Oral health status and treatment needs among (3-12)years old children with cleft lip and /or palate in Iraq	زينب جمعة جعفر	43	947
Evaluation of the efficacy of different storage media and different extra oral dry times on the viability of .periodontal ligament cellsof the a vulsed teeth	ياسمين عبد الحسين عبد الأمير	44	948
.Effect of oral hygiene instruction and scaling on oral malodor in population of Iraqi children in Baghdad city	هدى الياس علي حسين	45	949
Effect of salts supplemented to citric acid on the surface roughness and microscopical feature of the dentin of .permanent teeth (in vitro study)	شيماء عبدالله حنون	46	950
Evaluation of the antibacterial efficacy of carisolv and thyme extract as root canal irrigants in children (in vivo and .invivo study	بان زيد فقري	47	951
oral health status and treatment among 6-14years old school children in Yemen	خالد عبد السلام ابو بكر الحداد	48	952
evaluation of ph changes and calcium ion diffusion from calcium hydroxide non setting paste through root dentin using 4 different vehicle	ليباب جاسم محمد	49	953
fractures strength of pulpomotomized primary molars	ندى ساهر علوان حسين الرئيس	50	954
Oral health status in relation to salivary variables among a group of asthmatic patients	أسراء شكر غاتم	51	955
evaluation of trials of dental health education in improving gingival health	ليلي عزيز	52	956
the comparative study of application three different materials (calcium hydroxide mineral trioxide aggregate and biodene jas pulpotomy agent in rabbit teeth (histological and measurement)	مخلد لؤي علي	53	957
Evaluation of antibacterial effect of irrigant solutions titanium tetra fluoride green tea sodium hypochlorite normal saline using real time quantitative polymerase chain reaction	هبة تافع ياسين	54	958
Selected salivary constituents .physical properties and nutritional status in relation to dental caries among (4-5) years old children (comparative study)	نور احمد كاظم يوسف	55	959
Histologic and Immunohistochemicl study of TGFBI In pulp tissue of permanent and primary teeth capped by biodentineTM	ناديه علاء الدين عبد الصاحب محمد	56	960
Effect of nano-hydroxyapatite and casein phosphopeptideamorphouscalcium phosphate in preventing loss of minerals from permanent teeth after exposure to an acidic beverage (An in vitro study)	شهد زاهد عبد العباس اسماعيل	57	961
THE EFFECts of inhaled corticosteroids on oral condition among asthatic childern	ميته اسامه عبد الودود	58	962
prevalence and severity of molar - incisor hypomineralisaioninrelation to its Ettiological factors among school children age 7-9 years in Al-najaf governorate	ولاء عامر عوفي	59	963
Evaluation of selected salivary Immunological parameters and Iron Ion concentration in Relation to oral health condition among childredren with beta thalassemia major Karbla Iraq	شيرين سمير يوسف	60	964
evaluation of the influence of preformed metel crown ((Halltechnique))on the managing of carious primary molars ((a retrospective study))	ورفا محسن موسى	61	965
time of emergence of permanet teeth and impact of nutritional stast among 4-15 years ohd children and teenagers in basrah city /Iraq	هيام صلاح احمد رحيم	62	966
assessment of different techniques for detection secondary carious lesion	نور موسى كاظم	63	967
dental anomalies in permanent teeth and associated etiological factors in relation to nutritonal status in 15 years ohd students in basrah city Iraq	ناديه عزام عبد الوهاب الشريده	64	968
eiffcacy of papacair in removal of and redution of total bacterial conut comparative with the conventional rotary	منى هاشم محبيس	65	969
