C.V

Name: Mohammed Rashid Hammed

Date of Birth:31\5\1969

Religion: Muslim

Specialization: Conservative dentistry

Scientific Degree: Ass. Prof.

Work Address: College of Dentistry/Baghdad University

- **First, Scientific Certification:**

Degree science	University	College	Date
B.Sc.	**Baghdad**	Dentistry	1992
M.Sc.	**Baghdad**	Dentistry	1998
Ph,D	**Baghdad**	Dentistry	2005

No.	Career	Workplace	From -To
1	dentist	**College of Dentistry/Baghdad University**	1992-1998

2	Assistant **lecturer**	**College of Dentistry/Baghdad University**	1998-2005
3	**lecturer**	**College of Dentistry/Baghdad University**	2005-2009
4	Assistant **Professor**	**College of Dentistry/Baghdad University**	2009-2017

- **Second, <u>Career</u>:**

- **Third, <u>University Teaching</u>.**

No.	University	The (Institute /	From -To
1	Baghdad	College of dentistry	1992- 2017

- **Sixth, <u>Conferences which you participated</u>:**

No.	Conferences Title	Year	Place	Type of Participation
1				
2				

3				
4				
5				
6				
7				

- **Scientific Activities:**
- **Attendance of 16 conference**
- **Attendance of 13 symposium**

- **, Research Projects in The Felid of Specialization**

year	Journal	title	No
Vol. 1 8(3), 2006	Journal of Baghdad College of Dentistry	Assessment of diametral tensile strength and microhardness of Glass ionomer reinforced by different amounts of Hydroxyapatite	1
Vol. 20(1), 2008	Journal of Baghdad College of Dentistry	Assessment of consistency and compressive strength of glass ionomer reinforced by different amount of hydroxyapatite	2
Vol.51 No.2, 2009	Journal of faculty of Medicine Baghdad	of glassi Assessment of sheart ronds trength reinforced by different amounts of onomerc ement Hydroxyapatite	3
Vol.21(1), 2009	J Bagh College Dentistry	Assessment of consistency and compressive strength ofmanufactured dental base materials from enamel powderand synthetic hydroxyapatite with or without CO2 laser treatment	4
Vol. 21(4), 2009	J Bagh College Dentistry	Assessment of diametral tensile strength and microhardness of manufactured dental base materials from enamel powder and synthetic hydroxyapatite with or with out CO2 laser treatment	5

Vol.:7 No.:2 2010	**مجلة كلية طب الاسنان الجامعة المستنصرية**	**Assessment of shear bond strength of Polycarboxylate cement reinforced by different amounts of Hydroxyapatite**	**6**
Vol,23, No 3 , 2010	**Al - Taqani**	**Assessment of microleakage of glass ionomer cement reinforced by different amount of Hydroxyapatite**	**7**
Vol:34 Issue:1 ,2012	**Iraqi Dental Journal**	**Comparative study of retention of fiber- reinforced post at middle and cervical on third of root canal cemented by Glass ionomer and self adhesive Resin measured at different times**	**8**
Vol.(21): 2013	**Journal of Babylon University/Pure and Applied Sciences**	**Comparative Study of Retention of Fiber-Reinforced Post Retention At Middle and Cervical Thirds of Root Canal Cemented by Different Luting Cements**	**9**
Vol. 25(3), September 2013	**J Bagh College Dentistry**	**X-ray diffraction and biocompatibility of glass ionomer cement reinforced by different ratios of synthetic hydroxyapatite**	**10**
2014, 2(1): 126-132	***Journal of* Genetic and Environmental Resources Conservation**	**Evaluation of cleaning efficiency of different root canal instrumentation techniques by using diagnodent device (An *In vitro* study)**	**11**
Vol26 (4)2014	**J Bagh College Dentistry**	**Evaluation of marginal gap at the composite/enamel interface in Class II composite resin restoration by SEM after thermal and mechanical load cycling (An in vitro comparative study)**	**12**
(2015), Volume 3, Issue (4): 10- 20	***Journal of* Genetic and Environmental Resources Conservation**	**Antibacterial activity of glass ionomer reinforced by different amount of hydroxyapatite (in vitro study)**	**13**
Vol27(2) 2015	**J Bagh College Dentistry**	**A study to compare the cleaning efficiency of different irrigation systems for macro debris removal in instrumented canals (An in vitro study)**	**14**
2015, 3(1):53-58.	***Journal of* Genetic and Environmental Resources Conservation**	**The influence of different thickness of flowable composite base materials on compressive strength of composite restorations (An *In vitro* study)**	**15**
2015, 3(1):17-23.	***Journal of* Genetic and Environmental Resources Conservation**	**Evaluation of new rotary spreaders for lateral condensation obturation technique (*In vitro* study)**	**16**
2015,	***Journal of***	**Evaluation of marginal adaptation of a class V**	**17**

3(3):218-227.	**Genetic and Environmental Resources Conservation**	**composite resin restorations with different surface treatments after thermal and mechanical load cycling (An *In vitro* study)**	
(2015), Volume 3, Issue (12): 49- 54	**International Journal of Innovative and Applied Research**	**Apical microleakage of root canal obturated by lateral condensation technique by new rotary Spread (in vitro study)**	18
Vol. 28(3)2016	**J Bagh College Dentistry**	**Comparative study of the amount of apically extrusion ofdebris during root canal preparation using Wave one™,TRUShape 3D™, Hyflex™ CM and One shape™instrumentation systems (An *In vitro* study)**	**19**
