

CV

Name: Hussain Faisal Al-Huwaizi

Birthday: 5/9/1966

Specialty: Conservative Dentistry

Position: Assistant dean for scientific affairs

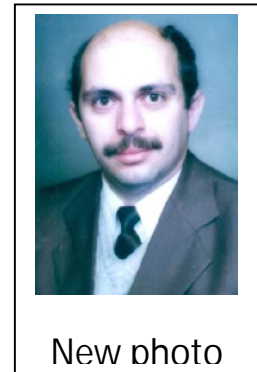

Scientific rank: Professor

Work Address: College of dentistry, univ. of Baghdad

Work phone:

Mobile phone (optional): 07901460020

E-mail (optional): hussain_adp@yahoo.com

1- Scientific qualifications (Degrees): MSc 1993, PhD 2000

2- Work history:

1- Member of the Junior staff of the Conservative Dentistry Department, College of Dentistry, University of Baghdad (1988-1990).

2- Student for Master degree in Conservative Dentistry in the Department of Conservative Dentistry, College of Dentistry, University of Baghdad (1990-1993).

3- Assistant lecturer in the Department of Conservative Dentistry, College of Dentistry, University of Baghdad (1993-1996).

4- Lecturer in the Department of Conservative Dentistry, College of Dentistry, University of Baghdad (1996-1999).

5- Assistant professor in the Department of Conservative Dentistry, College of Dentistry, University of Baghdad (1999-2004)

6- Professor in the Department of Conservative Dentistry, College of Dentistry, University of Baghdad (2004-till now)

3- University teaching:

- Senior lecturer for teaching Endodontics (Fourth year) 2003-till now.

- Teaching endodontics for postgraduate students (theoretical and clinical), 2000-till now.

- Senior lecturer for teaching scientific English language for postgraduate students 2006 -till now.

4- Theses supervised by you:

- Dara Hama Rasheed, Endodontics, supervisor (25/11/2009). Evaluation of propolis from Kurdistan region as a new resinous sealer in root canal obturation.

- Firas Ibrahim, Endodontics, Supervisor (6/2004). A clinical study to evaluate the efficiency of two different types of apex locators.

- Amal Khadim, Dental radiology, 2nd supervisor (3/2004). A comparison of actual tooth to its digital image for working length determination of single straight rooted teeth in endodontic therapy.

- Hawraa Khalid, Technical prosthodontics, 2nd supervisor (10/7/2006). Effect of amalgam bonding and pins on the shear bond strength of amalgam restorations.

- Samer Aun, Endodontics, Supervisor (24 /1/2007). The adaptability of three different gutta percha obturation techniques: Thermafil, System B/Obtura and Lateral condensation (an in vitro study).
- Thanaa Ghani, Endodontics, Supervisor (18/ 1/2010) . Evaluation of the use of different sizes of thermoplastisized root canal fillings to seal the apical area of the tooth.
- Saad Abdalbaki, Endodontics (1/2010) . The adaptability of three different gutta percha obturation techniques: Thermafil, Soft Core Regular, Soft Core (Low heat), of two different sizes (comparative in vitro study).
- Ali Hasan, Endodontics (2007) . The effect of delayed dowel space preparation on the apical seal of four obturation techniques (a comparative study)

5- Scientific conferences & seminars (mention 4 only):

- Attendance and poster presentation in the 13th congress of the European Society of Endodontology, Turkey, 4/9/2007.

The adaptability of three different gutta percha obturation techniques:Thermafil, System B/Obtura and Lateral condensation (in vitro study).

- Attendance in the annual FDI congress, UAE, 10/3/2009.
- Attendance in the 1st Pan Arab Endo. Conference Jordan 3-6/2009.
- Attendance and poster presentation in the World Federation of Endodontology Conference, Greece, 3-6/10/2010.
- 6- Attendant in the annual FDI congress in advanced endodontic course organized by Prof. Gutmann / USA and delegate of the Iraqi Dental Association, Shenzhen, China 19/9/2006.

7- Other scientific activities:

- member in the scientific committee in the Iraqi Dental Journal
- Member in the scientific committee in the Mustansiriya Dental Journal
- Chairman of the continuous education program in the college of dentistry, university of Baghdad 2004-till now.
- Chairman of the scientific committee in the college of dentistry, university of Baghdad 2009.
- Vice editor in chief of the Journal of College of Dentistry, University of Baghdad, 2004-till now. (19 issues)
- Participation in 79 conferences and courses (56 in Iraq and 23 Outside Iraq) of which 50 participations as a lecturer.

8- Research projects in the field of specialty to serve the environment, community or for education development:

- Congenitally missing third molars in Iraqi orthodontic patients. Iraqi Dent J; 20: 39-40, 1997.

- Assessment of the use of chlorhexidine as a cavity cleanser. In vitro study (M.Sc study), J Coll Dent; 2: 105-13, 1998.
- Incidence of the presence of the cusp of Carabelli in the maxillary permanent molars from an Iraqi sample. Iraqi Dent J; 22: 85-90, 1998.
- Assessment of the marginal adaptation of compomer and composite restorative materials. J Coll Dent; 4: 169-75, 1999.
- Fifth generation dentin bonding agent: An improvement in eliminating microleakage. J Coll Dent; 5: 83-9, 1999.
- A one-year evaluation of microleakage of different cavity varnishes. J Coll Dent; 6: 84-87, 2000.
- The effect of trituration time on the compressive strength of an Iraqi amalgam. J Coll Dent; 6: 104-107, 2000.
- Assessment of the longitudinal incremental composite placement technique in class II restorations. J Coll Dent; 6: 108-111, 2000.
- Enamel cracks and malocclusion. J Coll Dent 2001; 10: 126-131.
- The use of acetic acid as a new intracanal medicament: A bacteriological, histopathological and clinical study (Ph.D study).
- Evaluation of the antibacterial action of acetic acid and other intracanal medicaments. Jordan Dent J 2001; 16 (1) 12-22.
- Bacteriological assessment of different root canal irrigants. J Coll Dent 2002; 12: 102-5.
- The demineralizing effect of acetic acid and other intracanal medicaments. Jordan Dent J 2001; 16 (1) 12, 108-113.
- Clinical evaluation of the antibacterial action of different intracanal medicaments. J Coll Dent 2002; 13:66-71.
- The degree of irrigant entrance to the root canal by the use of different instrumentation techniques. J Coll Dent, 2004; 16: 1.
- The cytotoxic effect of different intracanal medicaments. J Coll Dent 2005; 17: 1-.
- A finite element analysis of the effect of different margin designs and loading positions on stress concentration in porcelain veneers. J Coll Dent 2005; 17: 2-.
- The prolonged demineralizing effect of acetic acid in root canal irrigation. (to be published in the J Baghdad College of Dentistry)
- The mandibular second premolar: morphology and variations from an Iraqi sample (accepted for publication in Iraqi Dent J).
- Coronal fractures in endodontically treated teeth (accepted for publication in Iraqi Dent J).
- The effect of the PVP addition on surface hardness and impact strength properties of heat cured resin denture base material. J Coll Dent 2009; 21:3.
- The effect of the PVP addition on biological properties of heat cured resin denture base material. J Coll Dent 2009; 21:2.
- Evaluation of the shear bond strength of alloybond amalgam adhesive with and without using of different retentive resins. J Coll Dent 2007; 19: 1.
- The adaptability of three different gutta percha obturation techniques: Thermafil, System B/Obtura and Lateral condensation (an in vitro study) J Coll Dent 2010; 22:3.

9- Membership of national or international scientific committees:

- 1- Member in the Iraqi Dental Association (1988-till now).
- 2- Certified Member in the European Society of Endodontology (2006-till now).

- 3- National Liaison Officer of the Iraqi Dental Association to the FDI (International Dental Federation) 2006-till now.
- 4- Representative of the Iraqi Dental Association to the annual congress of the FDI in China, 22/9/2006.
- 6- Vice editor in chief of the Journal of Iraqi Dental Association 2006 - till now.
- 7- Member of the executive committee of the Iraqi Dental Association 2005 - till now.
- 8- Chairman of the scientific committee of the Iraqi Dental Association 2005-till now.

10- Rewards, letters of appreciation & certificates:

- 1) From the dean of the college of Dentistry for presenting a lecture 'Porcelain Laminates' in the Journal Club in 17/2/1990.
- 2) From the University due to high results of examination in competition with the other dental colleges in Iraq – 29/12/1998.
- 3) From the University due to high results of examination – 29/12/1999
- 4) From the Ministry of Higher education – 15/11/1999
- 5) From the Presidential Bureau for the outstanding examination results of the College- 15/11/1999
- 6) From the University- 23/1/2000.
- 7) From the dean about heading the College's Examining committee – 28/9/2003
- 8) From the dean due to presenting and organizing an endodontic continuous education courses- 28/9/2004.
- 9) Annual conference of the College- 29/12/2004.
- 10) From the Iraqi Dental Assoc. – 30/9/2004
- 11) From the Iraqi Dental Assoc. – 4/10/2004
- 12) From the Dean of the College at the end of the academic year 2004-2005- 17/5/2005.
- 13) From the dean for organizing and lecturing in the Endodontic continuing education course – 8/1/2005
- 14) From the dean for organizing and lecturing in the Endodontic continuing education course – 4/2005
- 15) From the Dean of the College for the work of the journal 2005 (+100000 dinars).
- 16) From the Dean of the College at the end of the submission of the higher studies students- 25/10/2005.
- 17) From the University due to the good work of the submission of the higher studies students 25/10/2005
- 18) From the dean for conducting the 17th annual conference of the College of Dentistry 2005.
- 19) Ministry of Health for lecturing in continuous education course in Ministry of Health 5/5/2005
- 20) From the Iraqi dental association for conducting the first clinical advanced endodontic course 2006.
- 21) Most well known professor in the college international ly -2010.

11- Languages: English and arabic
