evaluation of mechanica; and histological significance of nano hydroxyapatit and nano zirconium oxide coating on the commercnim pure titanium implants	ماجد محمد رفعت	217	645
study the effect of additione of silanized oxide nanopartice;s on some properies of high- impact heat -cured acrylic resin	سؤدد عبد الله محمد الحلو	218	646
osseointegration assessment of al2o3-agno3 mixture on cpti implant	رسل ناطق تركي	219	647
BIOMECHANICAL EFECT OF nd0yag laeser ablation on commercially pure titanium dental implant	نور جمال محمد سعيد الراوي	220	648
evaluation the efect of additition of plasma treated polypopylener fibers and silanized silinized dioxode nanoparticlea	احمد غيث احمد	221	649
mechanical and histological evaluation of commercailly pure titanium dental imp;ants coated with a mixture of nano titanium oixde and nano	منى ناصر حسين	222	650
the effect of ag-zn zeolite incorrpation on some properties of condensation and addittion silitione impression materials	رحاب عامر كريم	223	651
evaluation the effect of coating amixture of ceramic nano hydroyxapatiate and magnesium chlorudr on osseointegation of implant in rabbites	زينة على عبد الرحمن الطاني	224	652
assessment of calcim carbonate cotaing on osseointegration of commercalliy pure titaninm implat by torqe removal test and histomorphometri analysis	مصطفى شاكر محمود	225	653
the uinfluence of chlorhexidine di-acetate salt incorporation soft deentue lining materail on antifungal activity and some mechaniacal	الطاف قصي ابراهيم	226	654
evalution of some mecheaniaical of anwe silcone materail for maxilloasfxs prostherr after additio	حسين علي عبد الله	227	655
effect of disnfection on som prpoerti of heat vulcanized maxiiofacial silical elastomer reinforced by nano silicn dioxide	مديحة فزاد جميل	228	656
